

Robust Features Coupled with Easy Management

- Serves files easily
- Streams music and video quickly
- Works with Windows®, Mac®, and Linux®
- Backs up data effortlessly
- Shares printers with ease

ReadyNAS™ NV+ was designed specifically for power users and home offices. Never before has there been available a cost-conscious network attached storage (NAS) appliance packed with robust high-end server features, including Gigabit Ethernet, hardware RAID, system monitoring capabilities and built-in backup. The NV+ couples out-of-the-box deployment and easy management with robust file serving and data redundancy.

Easy Deployment and Management

With an easy Web browser interface and setup wizard, the NV+ can be configured with minimal effort — saving you valuable time. Traditional file servers can take hours to configure and, even once up and running, don't have built-in system monitoring and email alerts. Automatic alerts give you the peace of mind that things are running smoothly because if trouble should arise, you will be notified.

RAID

Supporting hardware accelerated RAID (redundant array of independent disks) levels 0, 1, 5 and ReadyNAS's own X-RAID™ technology, the NV+ ensures full data redundancy with protection against hardware failure – something previously only available in high-end servers. If one drive fails, the data volumes can still be rebuilt with the remaining drives. Without RAID, once a failure occurs, you risk losing all of the data stored on the drive.

X-RAID Technology

ReadyNAS's patent pending X-RAID technology automates the volume expansion for you as you scale from 1 drive to 4 drives. Most NAS devices on the market aren't future-proof. You can't add or replace disks for larger capacity. ReadyNAS allows you to start with one disk, then add the additional drives over time, without reconfiguring the system and shuffling the data. Additionally, as disk capacity becomes larger and cheaper, you can replace all four disks, one by one, while X-RAID automatically manages the RAID details for you.

Backup

All ReadyNAS systems include multiple backup layers that you can customize to fit your needs. First, protect Windows and Mac clients with our included CDP software. Then, take a snapshot of your ReadyNAS data to ensure a recovery point. Next, backup to a USB drive on demand or on a schedule. Replication is a cinch between two ReadyNAS systems, and finally the ReadyNAS Vault option can move files and folders to an offsite secure data center for disaster recovery. It's all built in!

File Serving and Media Streaming

ReadyNAS is a single centralized source for all of your digital data. The variety of digital devices and hard drives that currently house the data in your home and office can make locating a particular file quite arduous. ReadyNAS can bring all of that data together for fast and easy file serving to multiple clients simultaneously. If it's video or other high-definition media you are working with, you can use your ReadyNAS for streaming to multiple devices at the same time. ReadyNAS also provides DLNA Certified media streaming to a wide variety of digital media devices (such as NETGEAR EVA products or Microsoft Xbox 360™).

Advanced System Design

The industrial design and ultra compact form factor of the ReadyNAS makes it perfect for any home office or small business. Standing only eight inches tall and five inches wide, it can fit in any entertainment center or on any desk without taking up much space or making much noise. ReadyNAS also offers low power consumption and a special energy-saving mode that allows you to automate startup and shutdown.

ReadyNAS Vault™

What about accessing historical records of your data, not just the most recent version? A ReadyNAS can move multiple archive copies to a data center using the optional ReadyNAS Vault software. This centralized, set-and-forget choice means no more dedicated servers, licenses or failed jobs, and captures as little or as much as you choose. Recovery can be done from any network location and is as simple as using a Web browser!

**• Technical Specifications**

- IT3107 network storage processor
- 4 Serial ATA channels
- Compatible with SATA and SATA II HDD
- Hot-swappable trays
- 10/100/1000 Ethernet
- LCD display
- 3 USB 2.0 ports
- 256 MB PC2700 DDR-SDRAM SO-DIMM
- Embedded 64 MB flash memory for OS
- Supports Windows, Mac, Linux/UNIX Clients
- DHCP server and print server
- Setup wizard and easy browser-based interface

• RAID

- Hardware X-RAID single volume auto expansion
- Multiple volume support for RAID 0, 1, 5

• Volumes

- Volume management
- Single volume auto expansion (X-RAID)
- Journalled file system
- User, group, and share-level quotas

• Network File Services

- CIFS/SMB for Windows
- AFP 3.1 for Mac OS 9/X
- NFS v2 / v3 for Linux and UNIX
- HTTP/S for Web browsers
- FTP/S support

• Media Streaming

- DLNA Certified media server
- Logitech Squeezebox™
- Network DVD player compatible
- Apple iTunes® server
- Sony PlayStation® 3
- Microsoft® Xbox 360™

• Network Security

- Selectable share, user, domain/ADS modes
- Windows ACL
- Encrypted network logins
- Secure Sockets Layer (SSL)

• Network Options

- DHCP or static IP
- WINS, NTP

- **System Management**

- Command Line SSH access
- Performance options
- Device status
- Email alerts
- Event logs
- SNMP

- **Backup**

- Integrated Backup Manager
- Programmable backup button
- Backup to/from CIFS/NFS/FTP/HTTP & RSYNC
- Backup to/from USB disks
- Bundled backup software: CDP (continuous data protection) backup software for Windows and Macintosh clients
- System configuration backup and restore
- Multi-system cloning
- Replication to another ReadyNAS system
- ReadyNAS Vault online backup with subscription option

- **USB Device Support**

- USB HDD and flash drives
- Printers
- UPS monitoring and auto shutdown

- **Web Browsers Supported**

- Internet Explorer 7.0+
- Netscape Navigator 7.0+
- Opera 7.0+; Safari 1.22+
- Mozilla Firefox® 1.03+

- **Languages**

- Management UI: English, German, French, Chinese, Japanese, Korean, and Russian
- File Name: Unicode

- **Electrical**

- Fanless server-rated AC power supply
- Input: 100-240V AC, 50/60 Hz

- **Power Consumption**

- 55W typical (with 4 x 250 GB disks)
- Power-saving mode

- **Thermal**

- 92mm ball-bearing chassis cooling fan
- Fan failure alert
- High temperature email alert with auto-shutdown option

- **Operating Environment**

- 0° – 40° C
- 20% – 80% humidity (non-condensing)
- FCC, UL, CE, C-Tick, RoHS compliance

- **Physical**

- Kensington® lock security hole
- Easy carry handle
- Dimension:
200 H x 132 W x 222 D mm
(7.9 H x 5.2 W x 8.7 D in)
- Weight: 4.6 kg (10 lb) without disks

- **Optional Spare Parts**

- Disk tray
- 92mm chassis fan
- AC power supply

ProSupport Service Packs Available

- **OnCall 24x7, Category 2**

- PMB0332

- **XPressHW, Category 2**

- PRR0332-100
