

## **Epson exclusive ReadyScan™ LED technology**

This energy-efficient light source uses less power, while ensuring greater productivity. And, there's no warm-up time required. Best of all, with no mercury included, this LED technology is better for the environment than traditional cold cathode fluorescent lamps.

*ReadyScan LED technology is available on Epson scanners displaying the ReadyScan LED logo. Please check product specifications to confirm feature support. Epson is a registered trademark, Epson Exceed Your Vision is a registered logomark and ReadyScan is a trademark of Seiko Epson Corporation.*
