A+ Content Services Portal Introduction

Welcome to the A+ Content Portal

You may access the A+ Content Portal in one of two ways:

1. Enter the URL address: <https://crowds.newegg.com/sellerlogin>, or
2. From Seller Portal > Add-on Services > A+ Content > Click on “Get Started with A+ Content”

The screenshot displays the Newegg Marketplace Seller Portal interface. On the left is a 'Navigation' sidebar with various management tools. The 'Add-on Services' section is expanded, and 'A+ Content' is highlighted with a red arrow pointing to it labeled 'Click'. The main content area is titled 'A+ Content' and provides an overview of the service, its benefits, and steps to get started.

A+ Content services offer customized product Overviews that are visually pleasing to customers to understand. With more information than a typical listing, A+ Content helps make informed purchase decisions and helps you grow sales.

Benefits of A+ Content:

- Extended and more detailed product descriptions
- Multiple images, comparison charts, and tables all within product descriptions
- Clean layout for quick content review
- Highlights product use and benefits
- Supports increased product page conversion
- Promotes brand awareness and customer interest retention

Let our in-house team of qualified designers create your enhanced content that you want it - starting at \$60* per product SKU.

*Volume discounts may apply. Please contact your Newegg Marketplace Account Representative for more information.

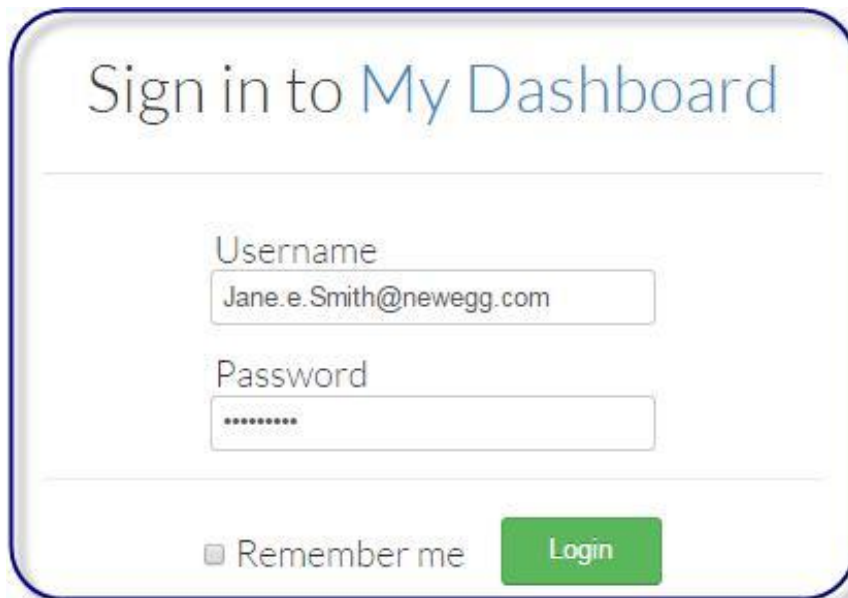

Let's Get Started:

Step 1 – Please review the User Guide to learn about our process: 

Step 2 – When you are ready, [click here to start your A+ Content request!](#)

Logging In

- Use your associated Newegg Marketplace Seller Portal Account Username and Password to log in (payment settlement will be tied to the seller account associated with your login). A registered Seller Account is required.
- Ex.

Production Process

The A+ Content production process will require approximately two weeks to complete. Below is an overview of all the steps we take to ensure your content quality is top notch. You may track this progress in the A+ Content Services Portal.

Open

When you publish your new task, it will be open for designers to review your request and accept the task. At this initial step in the process, you are still able to “Delete” your task if you choose to cancel the A+ Content request.

Designer Designation

Progress bar will move to “Accepted” when a designer accepts your request, or if you had initially assigned a task to a specific designer.

To change designers, you may choose “Abandon” to retrieve the task from the accepting designer and wait for a different designer to accept your task.

To cancel your A+ Content request, you may choose to “Delete” the task.

Product Upload

Once the designer completes and uploads the A+ Content, the task will be pending your preview and approval. Click  to preview.

Once a preview has been uploaded, you will no longer be able to “Abandon” or “Delete” your request.

Seller Preview

If everything is to your satisfaction, please approve by clicking “Accept” .

If there is anything you are dissatisfied with, you may “Reject”  the initial draft. In this scenario, the designer will be notified and (s)he will work on a new draft for you to review. You may also contact the designer directly with further instructions or questions by clicking .

Quality Assurance

There are two parts to our quality assurance (QA) procedure: 1) code review and 2) content quality review. An A+ Content task needs to pass both criteria to be acceptable for publishing.

Otherwise, the task will be rejected and revert to Step 1 for the designer to improve upon. You may review all activity history in the “Task History” .

This strict quality assurance procedure ensures your listing is free of errors, accurately reflects your submitted reference assets, and embodies your brand and product in its best light.

Publishing

When your task has passed the rigorous QA process, it will be ready to publish! Please allow 2-3 days for your completed A+ Content to be live on Newegg.com.

Payment Settlement

Once your task has reached the last step of the Production Process and is ready to publish, billing information will be posted to your seller account associated with your seller ID login. Within 24 hours, a payment settlement report will be accessible through:

[Seller Portal](#) > [Business Report](#) > [Payment Reports](#) > “Enter Your Seller ID”
