# International Shipping Requirements

Sellers can turn on the international product listing for SKUs as long as product shipments can be fulfilled by either of the following or both:

- Shipped by Seller (SBS)
- [Shipped by Newegg \(SBN\)](#) Please review the [guide](#) to optimize your global business with Shipped by Newegg (SBN)

In order to enable SKUs for international listing and shipping, sellers must supply all the product information as accurately as possible (i.e. country of origin, shipping weight, etc.) required for international trade and shipping.

**Note:** By participating in Newegg Global sellers are responsible to ensure all product listings enabled for international selling and shipping are in compliance with all applicable laws and regulations of the U.S., and other countries where product listings are activated.

## Setting Up Fulfillment Center and Ship to Countries

### 1. Fulfillment Center

Access Seller Portal, then open [Manage Account](#) > [Shipping Settings](#) > [Fulfillment Center](#)

You can set multiple warehouse locations around the world to fulfill your international orders. Click “Add Fulfillment Center” to add new warehouse location(s).

The screenshot shows the Newegg Marketplace Seller Portal interface. The sidebar on the left contains navigation links: Manage Account, Shipping Settings (highlighted), Data Feed Settings, Vacation Settings, Manage Items, Manage Order, Manage Promotion, Manage Message, Manage Claims, Business Report, Other Reports, and Add-on Services. The main content area is titled "Shipping Settings" and features a progress bar with five steps: 1. Fulfillment Center (highlighted), 2. Fulfillment Priority, 3. Return Policy and Info, 4. Inventory Return Address, and 5. Shipping Rate. Below the progress bar is a section titled "Set Fulfillment Center" containing a table with columns: Stat..., Action, Warehouse Location, Warehouse Type, and Shipping Destination. The table lists two entries: Hong Kong(HKG) and United States(USA), both with a green status icon and a red 'X' in the action column. At the bottom right of the page, there are two buttons: "ADD FULFILLMENT CENTER" (highlighted) and "NEXT".

## Define Store Return Policy and Info

Continue to [Shipping Settings](#) > [Fulfillment Center](#) > [Fulfillment Priority](#) > [Return Policy and Info](#)

You can define your return service information (return address and contact person, return service phone number, allowable return period, and restocking fee) for enabled countries. You can also input your return policy details, which will be displayed on your seller store page on the website.

1. For customer return address, 3 types are available:
  - Return to Shipper: returns will be sent to the order fulfillment center's return address.
  - Local Return Address: Set a local return address of current country.
  - Newegg Return Service: Newegg provides value-added service for all your return requests.
2. If you are using the Shipped by Newegg (SBN) service, Newegg will help process customer returns. We will direct all customer returns to our return center located in Whittier, California, in the U.S. To learn more about the benefits of SBN service, please review the [SBN FAQ section](#).
3. Set Customer Service Info and Return Policy. Sellers are required to setup the customer service information and return policy for the countries they will be doing business in. This information will provide the ability for customers to contact you with questions or concerns about your product or store.

## Specify Inventory Return Address

[Continue to Shipping Settings](#) > [Fulfillment Center](#) > [Fulfillment Priority](#) > [Return Policy and Info](#) > [Inventory Return Address](#)

You can specify an address for Newegg to return your inventory from the following possible options:

- Return inventory of Shipped by Newegg (SBN)
- Newegg return service
- Customer mistakenly returned items to Newegg.

The screenshot shows the 'Shipping Settings' page with a progress bar at the top. The progress bar has five steps: 1. Fulfillment Center (checked), 2. Fulfillment Priority (checked), 3. Return Policy and Info (checked), 4. Inventory Return Address (highlighted with a red box), and 5. Shipping Rate. Below the progress bar, there is a text instruction: 'Set an address for Newegg to return inventory to you. The inventory may be from Shipped by Newegg, Newegg return service, or customers mistakenly returning orders to Newegg.' On the left, there is a dropdown menu for 'Newegg Fulfillment Center' with 'United States(USA)' selected. To the right, there are several input fields for contact and address information, all containing placeholder text '23452345'. The fields are: 'Contact First Name', 'Contact Last Name', 'Returns Contact Number' (with a sub-field '2345-2345234Ext52345'), 'Address1', 'Address2', 'City', 'State / Province', and 'Country / Region' (with a dropdown menu showing 'Hong Kong'). At the bottom right, there are two buttons: 'PREVIOUS' and 'NEXT'.

## Configure Shipping Rate

[Continue to Shipping Settings](#) > [Fulfillment Center](#) > [Fulfillment Priority](#) > [Return Policy and Info](#) > [Inventory Return Address](#) > [Shipping Rate](#)

If you will be shipping the product (SBS), you will be able to designate the shipping methods and associated charges by country. Please note:

- You will set both local shipping and international shipping on the same section.
- For local shipping, you can set local shipping rate IF local fulfillment center is available. For example, if you are U.S. Seller and you have fulfillment center in U.S. then you are able to set the local rate for all orders placed by U.S. customers. If you are U.K. seller and you have fulfillment center in U.K. then you are able to set the local rate for all orders placed by U.K. customers.
- Shipping rate is based on the currency of the shipping destination country.

There are 4 shipping methods available for both Local Shipping and International Shipping. You may enable all of them or some of them, however in order to activate your listing and shipping, at minimum one of the four shipping methods must be enabled. Each shipping method has a pre-defined shipping transit time service level commitment (SLC):

### Local Shipping:

- Standard Shipping (5-7 business days)
- Expedited Shipping (3-5 business days)
- Two-Day Shipping (2 business days)
- One-Day Shipping (Next Day)

## International Shipping:

- International Economy Shipping (8-15 business days)
- International Standard Shipping (5 – 7 business days)
- International Expedited Shipping (3 – 5 business days)
- International Two-Day Shipping (2 business days)

You can work with any shipping carrier and have its services to support these shipping methods as long as the transit time SLC can be met and real-time tracking information can be provided.

### 1. Setup Local Shipping

You can set shipping charge calculation by order amount, weight, or unit.

The screenshot shows the 'Shipping Settings' page with a progress bar at the top indicating five steps: Fulfillment Center, Fulfillment Priority, Return Policy and Info, Inventory Return Address, and Shipping Rate (the last step is highlighted with a red box and the number 5). Below the progress bar, there are two tabs: 'Local Shipping' (highlighted with a red box) and 'International Shipping'. Under 'Local Shipping', the 'Set Shipping Model' section has 'Charge by:' set to 'Order Amount'. The 'Set Shipping Methods and Shipping Rates' section includes a 'Shipping Destination' list with 'United States (USA)' selected and 'Continental US' checked. The 'Set Local Fulfillment Shipping Rates' section has a note: 'Check the box(es) next to the shipping service(s) you would like to offer, and set the corresponding shipping rate(s)'. It features a table for 'Shipping Rates' with columns for 'Standard Shipping', 'Expedited Shipping', 'Two-Day Shipping', and 'One-Day Shipping'. The 'Standard Shipping' column shows '5-7 business days' with a checked box and a rate of \$5. The 'Expedited Shipping' column shows '3-5 business days' with a checked box and a rate of \$10. The 'Two-Day Shipping' column shows '2 business days' with an unchecked box and a rate of \$15. The 'One-Day Shipping' column shows 'Next day' with an unchecked box and a rate of \$20. There are also input fields for 'Order Amount(\$)' with 'Min' and 'Max' values, and a 'SAVE' button at the bottom right.

### 2. Set International Shipping

In this setting, you can set up all international countries made available for international listing. Shipping charge calculation can be set by order amount, weight, or unit.

The screenshot shows the 'Shipping Settings' page with the same progress bar as the previous screenshot. The 'International Shipping' tab is now highlighted with a red box. Under 'International Shipping', the 'Set Shipping Model' section has 'Charge by:' set to 'Order Amount'. The 'Set Shipping Methods and Shipping Rates' section includes a 'Shipping Destination' list with 'United States (USA)', 'India (IND)' (highlighted with a red box), and 'Singapore (SGP)'. The 'Set International Fulfillment Shipping Rates' section has a note: 'Check the box(es) next to the shipping service(s) you would like to offer, and set the corresponding shipping rate(s)'. It features a table for 'Shipping Rates' with columns for 'International Expedited Shipping', 'International Two-Day Shipping', and 'International Standard Shipping'. The 'International Expedited Shipping' column shows '3-5 business days' with a checked box and a rate of \$10. The 'International Two-Day Shipping' column shows '2 business days' with an unchecked box and a rate of \$15. The 'International Standard Shipping' column shows '5-7 business days' with a checked box and a rate of \$20. There are also input fields for 'Order Amount(\$)' with 'Min' and 'Max' values, and a 'SAVE' button at the bottom right.

- There is a convenient way for you to setup the Shipping Rate for multiple countries: **Apply below settings to shipping destination(s)**. This is designed to copy the current settings to additional countries.

**NOTE:**

- The shipping settings has to be completed for at least one international country in order to copy the settings to additional countries.
- Newegg will use the source country's currency to convert shipping rate into all local currencies for selected countries. This is a one-time conversion and the converted shipping rate will not be refreshed as a result of future currency rate fluctuation.

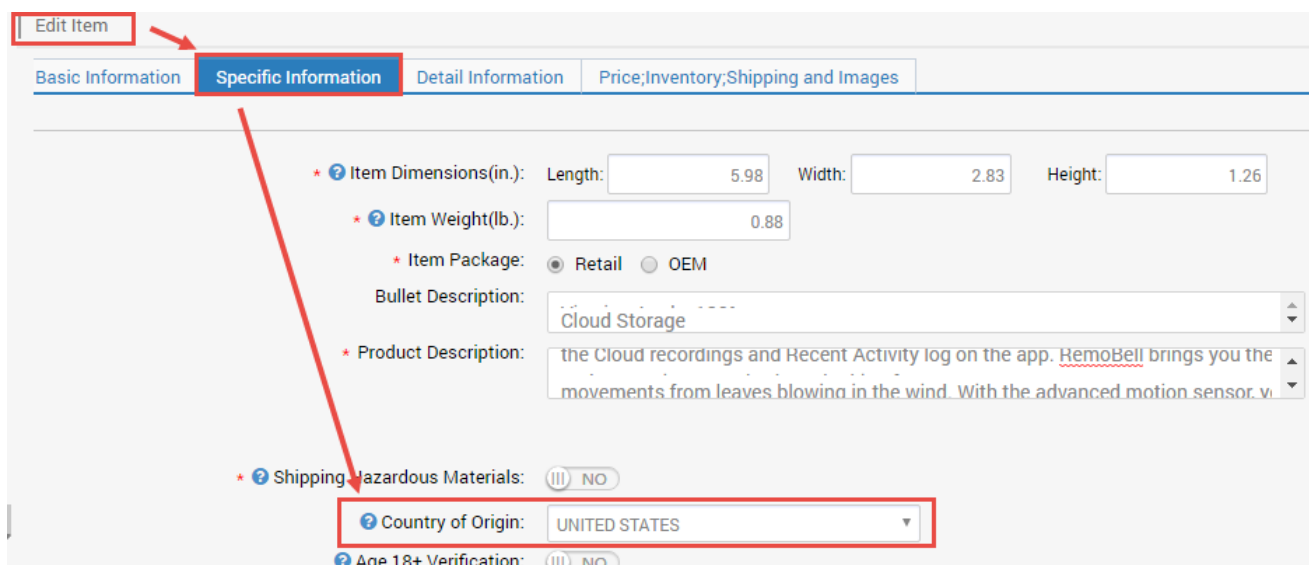

## Activate Your Items Internationally with Correct Price Information

There are several ways to activate your items with correct price information for Newegg Global:
